CONTEXT

Target System

Carry over from diverge

“How Might I” question

Carry over

Evaluation Criteria

Likelihood of success, severity of impact, novelty

Priority Logic

High/High = test first. High novelty = test regardless. Low/Low/Low = skip.

Attack Goal

What specific outcome are you testing for?

EVALUATION ROUNDS

A1

Likelihood / Severity / Novelty -- Rate each H/M/L

Priority & Rationale

Why test or skip this one?

A1

Likelihood / Severity / Novelty -- Rate each H/M/L

Priority & Rationale

Why test or skip this one?

A1

Likelihood / Severity / Novelty -- Rate each H/M/L

Priority & Rationale

Why test or skip this one?

AFFINITY CLUSTERS

Group evaluated approaches by theme. Label each cluster. Note gaps.

TESTING ORDER

Ranked list of what to test first, second, third, with rationale.
